A ready-to-play steel cage with integrated boards, twin-wire mesh ball stop and two mini goals. Lockable, and built for permanent outdoor installation.

CAGE · ANTIVANDAL

MADE IN GERMANY · DIN EN 15312

THE CAGE

What you get

- The SoccerGround Cage Antivandal is a ready-to-play steel system with integrated boards, ball stop and 2 mini goals
- Ideal for permanent outdoor installation
- Diameter approx. 16 ft · Height approx. 7'2"
- **It consists of:**
 - 7 board elements, approx. 3'3" × 6'7" (H × W), original DFB mini-pitch boards, 1.6" thick, sound-insulating (2 elements with goal opening)
 - 1 element with access door, lockable against unauthorized access
 - 2 mini goals, approx. 2'7" × 3'3" (H × W), with sturdy steel bars
 - 8 twin-wire mesh ball-stop elements (1 element with door opening)
 - Posts and fixing materials
- It can be placed on almost any level surface, e.g. asphalt, concrete, natural or artificial turf, wooden floor or carpet

OPTIONAL EXTRAS

Complete the cage

Professional soccer artificial turf – with optional shock pad for slip resistance and joint protection through good shock absorption

Roof net – for complete protection against lost balls

Advertising branding – with direct logo print or interchangeable vinyl graphics on the inner and outer board panels

Spotlights – for a special lighting effect

Detailed information on request.

INSTALLED
