

SOCCERGROUND CAGE · MOBILE

Fast and furious, **but fair.**

A ready-to-play steel and aluminum cage with integrated boards, ball-stop net and two mini goals. Quick to set up, easy to transport: ideal for events.

CAGE · MOBILE

MADE IN GERMANY · DIN EN 15312

THE CAGE

What you get

- The SoccerGround Cage Mobile is a ready-to-play steel and aluminum system with integrated boards, ball stop and 2 mini goals
- Ideal for temporary use and events
- Diameter approx. 16 ft · Height approx. 8'6"
- **It consists of:**
 - 7 board elements, approx. 3'3" × 6'7" (H × W), original DFB mini-pitch boards, 1.6" thick, sound-insulating (2 elements with goal opening)
 - 1 element with door opening
 - 2 mini goals, approx. 2'7" × 3'3" (H × W), foldable, with net
 - 1 surrounding ball-stop net, mesh size 4" × 4"
 - Posts and fixing materials
- It can be placed on almost any level surface, indoors or outdoors, e.g. asphalt, concrete, natural or artificial turf, wooden floor or carpet

OPTIONAL EXTRAS

Complete the cage

Professional soccer artificial turf – with optional shock pad for slip resistance and joint protection through good shock absorption

Roof net – for complete protection against lost balls

Advertising branding – with direct logo print or interchangeable vinyl graphics on the inner and outer board panels

Spotlights – for a special lighting effect

Detailed information on request.
